Unit 1, Chapter 1

Using A computer

Reference Pages: 2-8

What is a Computer?

A computer is a machine made by people.

It helps us do many things like:

- Watch cartoons
- Play games
- Draw pictures
- Solve sums
- Talk to friends

Computers Need Electricity

- Computers are electronic machines
- They need electricity to work
- We can add apps to help us do tasks

Types of Computers - 1

- Desktop: Big computer on a table
- Laptop: Small computer you can carry

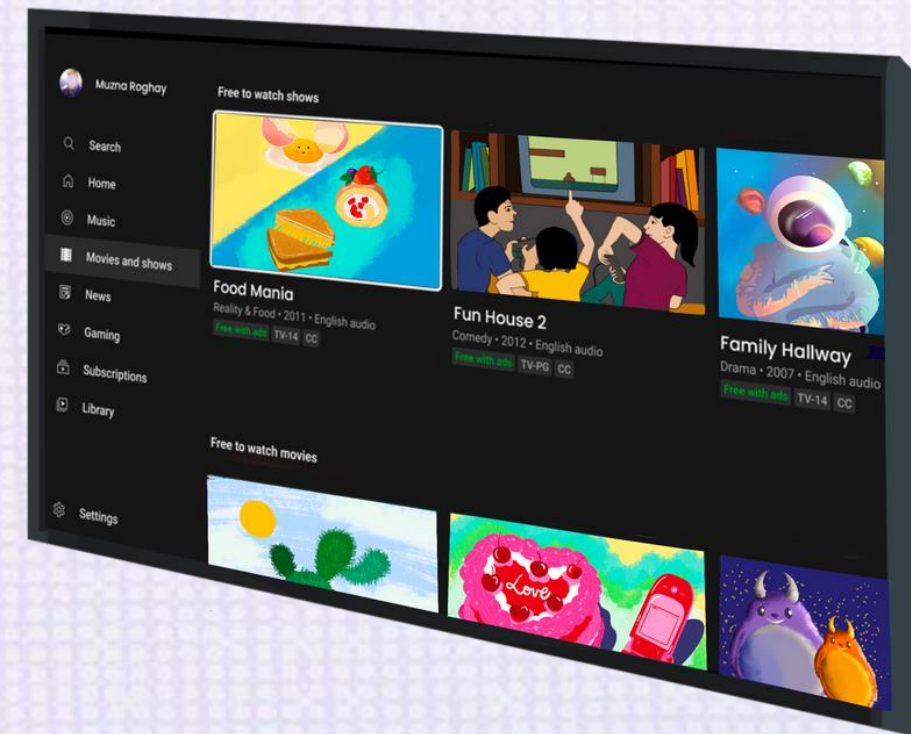

Types of Computers - 2

- Smartphone: A phone that can do many things.
- Tablet: A small computer you can hold in your hands

More Smart Devices

- Smart Watch: Worn on wrist, tracks steps
- Smart TV: Plays videos from the internet

Did You Know?

- Old computers were as big as a room!
- Now they can fit in your hand!
- A stylus is like a pen for tablets

E-Readers

- E-Readers are for reading books
- You can carry them and read anywhere
- You can change the font size too!

Computer Manners

- Be gentle with screens and buttons
 - Keep your devices clean
- Don't leave them on the floor

Over to you

Activity

**Can you think of
other machines that
use electricity
besides computers
and TVs?**
