**INTRODUCTION**
Multiple Intelligence and Learning

Each individual has a unique combination of intelligences and needs the opportunity to develop it through different experiences. Children have different styles, needs, and interests. They should be given the space to perform according to their individual abilities. Development generally follows a pattern and the stages are the same, though the rate of development varies from one child to another even within the same age group. To help teachers facilitate the children, a large bank of activities has been given to choose from. All activities are not mandatory.

Multiple Intelligence and their unique combinations make each learner unique.

**Multiple Intelligence**

- **Verbal-Linguistic Intelligence** is the ability to use language and vocabulary efficiently, either verbally or in writing. Early childhood is the time when children rapidly acquire language. They need a wide range of experiences to learn from pictures, songs, stories, free expression, flash cards, and board games.

- **Interpersonal Intelligence** reflects the ability to understand and perceive other people's moods, feelings, and intentions. Interpersonal intelligence indicates a child's ability to interact with adults and peers, and develop healthy relationships with others.

- **Intrapersonal Intelligence** is characterised by the ability to understand the self, needs, desires, and limitations. It reflects children's awareness of their feelings, likes, dislikes, and self-esteem. It also indicates their ability to express feelings and react to others as well.

- **Musical Intelligence** is a strong auditory intelligence characterised by a sense of rhythm, music, and hearing. Children should be free to express themselves and given ample opportunity to use rhythm and music for learning.

- **Logical-Mathematical Intelligence** is the ability to solve problems and deduce a numerical in a scientific problem logically. Give the children opportunity to think and reason, form memories, recall, visualise objects which are not immediately present, and solve simple problems.

- **Visual-Spatial Intelligence** is characterised by a strong visual memory and the ability to mentally map spaces. Drawing, tracing activities, and visual aids are useful for spatially smart learners. Children learn better when a greater number of senses are engaged through activities.

- **Bodily Kinesthetic Intelligence** is related to physical activity and the ability to control bodily motion. Learners with this type of intelligence learn faster using the hands-on approach. They need experiences to develop motor skills. Large motor skills involve movement of large muscles to bring about actions. Fine motor skills involve movement which involve small muscles.

- **Naturalistic Intelligence** implies an affinity towards nature, i.e. plants and animals. The outdoors benefits such learners. Appreciation of nature should be included early in life by giving children a chance to explore nature around them.

Activity Based Environment—Checklist for Teachers and Coordinators

Planning Time for Activities

*My Learning Train* is designed as a series for children and as a tool for teachers.

- The books and resources help teachers to create an interactive activity based learning environment.
- The Activity Guide for Parents included in the supplementary readers/worksheets facilitate the parents to do the same at home. *My Learning Train* facilitates teachers in creating a student-centric classroom.

10. Plan and practise short simple instructions: Ask children to repeat the instruction with the speaking fingers where they make a fist and open one finger at a time repeating the instructions. Refer to the section ‘Class Division/Settings for Activities’ in the TG.

11. Talk about classroom rules with the children. They can be written on a chart and put up in the class. Refer to them regularly.

**GET READY FOR THE PARENTS!**

1. Send a note to the parents saying, ‘Please cover the books with a transparent sheet, for books to be identifiable by their colours.’

2. Arrange an orientation session for parents where you explain to them why activities are important. Demonstrate a few activities from the book in front of the parents. Explain the importance of communication between parents and teachers.

3. Pull out the Activity Guide for Parents from the worksheets/readers booklets: Give parents the handout at the orientation session and explain how to use them.

4. Discuss health and safety norms with parents: Request them to respond to your queries and concerns at the earliest.

5. Hold regular Parent-Teacher Meetings (PTM) as per school schedule: A platform to share information not only about the children but the changes required and happening in the school system.

6. Invite the parents, with school administration’s permission, to attend a few regular storytelling and activity lessons as participants.

7. Plan and organise a small presentation by the class for the parents in a few PTMs during the academic sessions.

8. Burn a CD of the songs/rhymes/storytelling by the children. Give it to the parents at the end of the year.

9. Develop and maintain students’ profiles. Collect information about their habits, etc.
Class Division/Settings for Activities

In the classroom, teachers can interact with learners in different ways. Using the most appropriate interactive activity is a fundamental factor in the success of any lesson. Here are five suggested interactive strategies for various activities proposed in the book:

<table>
<thead>
<tr>
<th>Activity Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Large Group Activities</td>
<td>Children form part of a big group (in the shape of a circle/square/rectangle) with the teacher. The teacher can play the tambourine, ring a bell, or sing a song with the students for the class activity.</td>
</tr>
<tr>
<td>Pair Activities</td>
<td>Here the learners work in pairs at their desks/ activity space.</td>
</tr>
<tr>
<td>Small Group Activities</td>
<td>Children can be divided into groups of 4/6 depending on the activity, and all the groups are to carry out the activity simultaneously. The group starts the particular activity together and they are facilitated by the teacher. The teacher can use colour-coded cards or cut-outs to divide the class into groups.</td>
</tr>
<tr>
<td>Individual Activities</td>
<td>Here children work by themselves. Teachers should facilitate the students.</td>
</tr>
<tr>
<td>Team Activities</td>
<td>Here the class is divided into two teams for activity time.</td>
</tr>
</tbody>
</table>

Present below are a few suggestions for helping children understand the settings in which the activities need to be conducted.

- Plan the settings and instructions that you will tell children for each activity beforehand.
- Keep the instructions short and precise.
- Plan 2–3 instructions for Pre-Nursery and Nursery, and not more than 4–5 instructions at a time for Kindergarten.
- Talking Hand: Instead of teachers repeating the instructions, ask the children to listen and repeat the instructions by closing their left fist self-facing, opening one finger at a time, and repeating the instructions a few times before the activity.
- The Talking Hand will later be used for blending and segmenting sounds in words and counting syllables as the children progress.
- Rhymes such as ‘Good Morning’ from the student’s book, World Around Me Kindergarten (page 2) can be used for a pair activity where the children find a partner and say, ‘Good Morning’.
**Activity Kit and Resource Centre**

A simple hands-on Activity Kit can help the teachers conduct a large number of activities. Activities can mostly be made with 10 cm x 10 cm cards, stationery, and daily tools that are easily accessible to teachers. The following tools have been suggested after keeping in mind the general availability of material across regions and schools.

Resource Management

- List out all your resources and update the list regularly.
- Fill in the resource information list detailing all the resources you have created so that other teachers can share it too. Have a digital space assigned to easily conduct activities with digital resources to reduce use of attendance registers and paper.
- Always stock supplies in advance.
- Use even the smallest low-cost resource carefully and avoid any kind of wastage.
- Reuse and recycle everything you can.
- Have a place for everything and encourage children to keep everything in its place.
- Encourage proper handling by children of materials right from the beginning.
- Encourage active participation of students in class. Allot tasks to the children and encourage them to take on responsibility.

Frequently Asked Questions

Q: How will we finish our syllabus if we conduct activities? What will the parents say? Activities and experiences are an integral part of the pre-primary syllabus. It is only after children do activities that we should guide them towards writing, following the cycle: Listening – Speaking – Reading – Writing. Activities will manifest in skills of the learners, who will be able to show parents how and what they have learnt. This series also includes activity suggestions for parents, which they can conduct at home to reinforce topics taught in schools.

Q: How can activities be conducted with a large class size? Activities can be conducted in varied settings and are designed to cater to average class sizes—very large class sizes in pre-primary must be avoided.

Q: How can we conduct all the activities within our lesson time? Doing all the activities is not mandatory. However, it should be noted that each activity suggested has been classroom tested and is designed to be short as per the attention spans of the children, so they can be easily applied in the classroom—they go hand-in-hand with the curriculum.
Resources of the Student’s Books

WALK-THROUGH
Walks the teachers and parents through the features of the book with examples.

TABLE OF CONTENTS AND ACTIVITY GUIDE
Teachers can choose and plan from this list according to the needs of their classes.

ASSESSMENT STICKERS
Can be used on notebooks for the learning outcomes and observations.

STICKERS
Sticker activities can be sent home for one to one activity time with the parents.

Flash cards
Flash cards are a very important teaching and learning tool. These must be given to the children at regular intervals.

• Remove the flash cards from the perforation near the binding as soon as the children bring the books to school.
• Number each complete set with one number or symbol for easy identification. For example, all the cards of the first set should be marked with the same symbol. This helps when the cards get mixed up.
• The set of flash cards sets can be used with pair/small/large group activities.
• Use flash cards for individual activities for observation and assessment of learning.
• Start by using only 10 sets of flash cards and add as required. Use the other sets to create games and stick puppets.
Stories and Reading Skills Reader
Supplement for vocabulary building, introduction to phonics, and reading skills.

Please Note: Most of the stories will have to be read out to the children at this stage and have been created for the development of spoken vocabulary and comprehension.

The stories and rhymes can be used for the following activities:

• Point to the pictures on the story pages and narrate the story.
• Encourage the children to answer questions about the story.
• Revisit the story and pause in between so that the children can complete the story.
• Make stick puppets for the stories and narrate the stories with the puppets in your hands.
• Ask the children to look into the mirror and say a few lines about themselves.
• Buddy reading—pair the children for picture reading and narration.
• Ask the children to speak small dialogues and enact the story.

Parents Activity Guide
A pull-out activity guide for parents is added within the World of Letters, World of Numbers, and World Around Me readers/worksheets.

It provides detailed activity suggestions for parents to easily follow at home to help develop their child’s skills and reinforce topics taught in school.

Please Note: The Activity Map and the Weekly Planning Guide will help the teacher to plan and map activities in school.
The following table maps the activities and the teaching guide page numbers to the pages of the student’s book to help teachers see the activities at a glance and plan. All activities are not mandatory and teachers can choose from the list.

A common bank of rhymes and stories have been repeated in the three levels of *My Learning Train World of Letters* to give the children scope for repetition and recapitulation. The complete rhymes list is given on the following pages.

<td>Stories and Reading Skills Reader</td>

**Please Note:** Story time should be fun! Give the children enough opportunity to revisit these stories later. The stories can be modified/shortened/lengthened according to the abilities of the children. They can be repeated in all three levels in different ways to help the children boost comprehension, and develop their verbal skills. Children must not be forced to memorise (rote learn) and repeat the stories without understanding what they are saying.

Please Note: The below mentioned weekly planning guide can be modified to suit the learners’ needs and the classroom environment.

- The suggested design of the book is for 35–40 weeks of instruction time. Given below is a broad break-up of the syllabus, which can be modified according to the school’s timetable.
- Use all the given resources both in the student’s book as well as the teaching guide. Flash cards are important resources and children must be given an opportunity to use them regularly.
- Parents Activity Guide is a part of the Stories and Reading Skills Reader and can be pulled out and sent to the parents.
- Stories and Reading Skills Reader (SR) can be used to complement the student’s book. It can be used to read stories to the children, as well as help them picture-read. It will help children develop a vocabulary and offers plenty of picture reading pages. The children can also be introduced to phonic sounds and simple words that they can build and read with the help of the letters/symbols. Rote learning of the rhymes and stories is not necessary.
- The children can borrow the readers from Nursery and Pre-Nursery for more stories.

**Note:** The immediate environment of the children should be safe and full of experiences where the children can play and learn.

**Please Note:** Observe the learning outcomes after 10–12 weeks to set pace for the next topics and activities based on the response of the children. Use the given flash cards and activities to observe the children. Plan Circle Time and interaction regularly and focus on the development of the concepts for long-term learning and assimilation of children. Read the developmental indicators mentioned in the Assessment Guide section of the TG carefully to assess if the children are meeting the general standards mentioned. Add to the list as required.

Colour-Coding: Labels of various colours can be used to differentiate between the materials made by the teacher for different subjects. For example, an orange label can be pasted on a packet carrying material for an English activity, a purple label can be used for Maths, and a light blue label for General Knowledge.

Number-Coding: Each packet can be given its own particular alpha-numeric code to act as a reference. This way teachers can easily identify the resource later. For example, you can use ‘E’ to represent English, ‘M’ for Maths, and ‘GK’ for General Knowledge. Refer to the given image below to use as an example:

Recording in a Diary: The teaching resources created and used for activities should be noted down in the teacher’s diary to create a database which the teacher can use in future.

The following format can be used to make entries in the teacher’s diary. This will enable teachers to reuse resources easily in future.

Saving, Reusing, and Modifying: If the materials are laminated and used carefully, they can be used in the next session.

Worksheets: Worksheets should be used together with activities mentioned in the student’s books and teaching guides to reinforce topics taught at that level. Worksheets should be regularly sent to parents if children need to revisit the topic taught in school. This can be achieved if some of the worksheets are pasted in the children’s notebooks.

Storing Flash Cards: Each book has been provided with a set of flash cards. This is how you can store them:

- Number the flash cards of each book (with a permanent marker) with the roll numbers of the children.
- Numbering the flash cards helps you to place the cards with the correct set if they get mixed up. Give children the opportunity to read them for a day or two as reading sheets before tearing them into flash cards.
- Get a set of transparent resealable bags to store the cards.
- You can also devise your own methods of storage as per your convenience.
Making ‘My Learning Train’ for the Classroom

The method to create the resource known as ‘My Learning Train’ for classroom usage is given below. It must be placed where children can reach easily. The number of pockets in the train can vary according to the space available in the classroom.

**Materials Checklist:**
- Four chart paper strips of dimensions 70 cm × 19 cm
- One chart paper strip of dimensions 19 cm × 20 cm
- Twenty-six 10 cm × 10 cm cards of different colours
- Circles of diameter 5 cm each
- Adhesive

**Instructions:**
1. Place the cards on the chart paper strips to get the spacing right.
2. Spread adhesive on three sides of the cards and paste them to make pockets.
3. Put them up in a single row to make the Learning Train. Refer to the image below to use as an example:

   ![Learning Train Image]

   Each card should have adhesive on 3 sides to make a pocket.

Stick Puppets

Stick puppets are a resource to be used for different activities mentioned in the ‘Activity Bank’ section of the teaching guide. They can be used for display and also as an interactive resource for activities.

**Materials Checklist:**
- 10 cm × 10 cm cards and 10 cm × 20 cm cards
- Pictures relevant to each activity (fruits, toys, etc.)
- Transparent packing tape.
- Ice cream sticks
- Adhesive
- Recycled–reusable bags for storing resources.

**Instructions:**
1. You can write letters, words, numbers, or draw any illustration from the books on cards to make stick puppets.
2. Paste the cards on sticks and make sets of stick puppets for the children to use. Refer to the given image.
3. Laminate with tape if required—please note that the children will be holding the material with the sticks.
4. Store in bags and label neatly.

5. Add the name of the set and the teacher who made it in the diary/register used for record keeping so that all the teachers know it is there and can share, exchange, and reuse to optimise each resource.

**Please Note:** For word-building exercises, letters can be written on 5 cm x 10 cm cards. Similarly, picture cards can be made by simply enlarging pictures from the student’s books and pasting them on 5 cm x 10 cm cards. They can be laminated for long-term use.
Alphabet Frieze

Materials Checklist (for each set):
• Two chart papers of the same colour
• One chart paper of a contrasting colour
• Twenty six 10 cm × 10 cm white cards
• Red and blue sketch pens and markers
• Small ruler
• Adhesive
• Transparent lamination tape

Instructions:
1. Draw 2 red and 2 blue horizontal lines (the top and bottom lines will be blue and the middle two will be red) using a small ruler on all the white cards (on which you will be writing your alphabets).
2. Write the capital and small case vowels in red, and the capital and small case consonants in blue.
3. Paste the two charts together to make a large sheet and place the cards on the charts in three rows:
   Row 1: Aa to Ii,
   Row 2: Jj to Rr, and
   Row 3: Ss to Zz
4. Pick up the cards one at a time and spread adhesive on only three edges. Keep one side open to make pockets. Paste the cards on the sheet as per the arrangement from point 3.
5. Cut the differently coloured chart in a semi-circle to make the front of an engine, the smoke spout, and the wheels. Paste these parts on the larger chart to complete the train.
6. Laminate the train using transparent adhesive tape to protect it. Make sure that the pockets remain open from the top.
7. Pin it up at the level of the children and let them start their journey with the alphabet.

Reading Wall

Materials Checklist:
• A sheet of chart paper
• 10 cm × 10 cm cards of various colours
• Adhesive
• Name puppets (of words to be introduced)

Instructions:
1. Apply adhesive on three sides of each card (to make pockets) and paste on the sheet of chart paper.
2. Place the name puppets in the Reading Wall pockets to introduce children to new words they can read. Name puppets can be made by writing words in a bold, clear font on a label (5 cm x 10 cm) and pasting it on an ice cream stick. Laminate if required.

**Theme Boards**

Theme boards are used to display images/scenes from stories (jungle, farm, rooms of a house, etc.). For theme boards, chart papers of different colours can be used to create different backgrounds as per the requirements of the activity (for example, jungle animals drawn or pasted for an activity related to the jungle.)

**Materials Checklist:**
- Chart papers of 2–3 colours
- Picture and word stick puppets

**Instructions:**
1. Cut the chart paper to the size of the required theme board. Draw or paste images on the chart paper as per requirement of your desired theme board, and slightly fold upwards from the bottom to make a pocket.
2. Staple the upward fold every 2/3 inches.
3. Fix the chart paper on the board and keep adding and removing the stick puppets as per the topic being taught in class.

**Strategies to Encourage Student Participation**

By making classroom activities highly interactive, teacher can promote optimal learner participation, leading to an urge to use language both in speech and writing. The selection of strategies is left to the discretion of the teacher. However, the following are recommended:
Handwriting

Writing skills are an important part of the learning process. Research suggests the order of learning should be as follows:

1. Sand play
2. Finger play
3. Sandpaper tracing
4. Scribbling on chalk and slate/crayons and drawing sheets
5. Painting
6. Moulding clay
7. Beading strings
8. Directionality (lines and curves following a simple pattern)
9. Air-writing
10. Rainbow writing (tracing over a stencil)
11. Developing the tripod grip with the help of normal sized pencils rather than thick ones as the children’s hands are smaller and they would find it easier
12. Recognition of letter/number shapes, tracing letters/numbers in the correct order and formation in hollow outlines, tracing on dotted lines, writing freehand, and writing independently.

When to begin writing?

Children should begin writing when their small muscles are strong enough to grip a pencil and are supported by a large number of pre-writing activities. Pre-writing activities should occur at the Pre-Nursery level, with tracing and simple transcription exercises at Nursery level, leading to writing independently in Kindergarten.

Cursive or print?

Start with a print-rich and print-script environment for the development of reading skills.

- Books/computers/signboards are all in print
- Simple directionality (lines and curves following a simple pattern) make writing easier
- Reading and writing one font/script will also make reading easier for children
- Flash cards with letters printed on them are easier to use to build words and can be read with ease
- Children can easily pick up cursive by the age of 6–7 if required

Start with simple print upper and lower case letters and let the children use these in all the three levels. Cursive as a writing style can be introduced even by the end of class 1 or the age of 6 to 7.

Lower case letters:

- Starting counterclockwise: a, c, d, e, f, g, o, s, q
- Starting down: i, j, k, l, t, u
- Starting down and then going up: b, h, m, n, p, r
- Using diagonal lines: v, w, x, y, z

Upper case letters:

- Straight lines: E, F, H, I, L, T
- Diagonal straight lines: A, K, M, N, V, W, X, Y, Z
- Lines and curves: B, D, J, P, R, U
- Starting counterclockwise: C, G, O, Q, S
Reading and Phonics
This series is a simple activity-based program designed for hands-on concept building of sound-symbol association for the pre-primary learners.

Learning time needs to remain happy and simple. Phonics is only one part of the process to develop reading skills. Children need to have a combination of rhymes, stories, a big vocabulary bank, and comprehension skills to become good readers.

1. It was developed with activity ideas to help children between the age groups of 3–5 understand the letter-sound correspondences of 26 letters and 43–44 sounds.
2. It should be introduced as a light explorative program, and children can be encouraged to learn at their own pace. They should not be hurried to achieve pre-planned targets.
3. This series also empowers teachers to make simple resources using a low-cost kit.
4. To begin with, the focus is on the 26 single letters as symbols for the short vowel sounds and consonant sounds.
5. The programme has resources in the form of flash cards as well as word walls given in the Stories and Reading Skills Reader reading charts, and phonic train posters. These are ideal for the pre-school settings to help lay the foundation of early literacy.
6. The order of letter sounds introduced can be changed, modified, and be done in a very simple way, especially as English is not the mother tongue and many sub-skills need to go hand in hand.

This series will help the teachers to introduce the core skills that will lay a foundation for a formal and comprehensive phonics program at the primary level.

Oral Blending
You start with the separate sounds and end up with the whole spoken word. For example, /b/, /a/, /t/ and the children blend and say bat.

Oral Segmenting
You start with the whole word and the children segment it into sounds /b/ /a/ /t/.

Pre-Writing Activities
Using different tools and helping the children to develop a good pincer grip is important.

Uses to:

1. Decoding: Skill required for reading.
   Recognition of graphemes (letters or letter groups) from left to right of a printed word, then sound out and blend the sounds to hear, or discern the word.

2. Encoding: The technical skill for spelling.
   Identifying the smallest sounds from beginning to end of whole spoken words (oral segmenting) in readiness for selecting letter shapes as code for those sounds.

3. Writing: Learning to hold the pencil with the tripod/pincer grip.
   Recognising the letter shapes, then link the letter shapes and their formation to the sounds of speech to write words.

A few tips:

1. Say the sounds correctly.
2. The phonics lessons should be short, direct, clear, and have room for practice.
3. Start with readiness activities: Children need to have a series of activities to get ready for phonics.
4. Do not hurry the children, and give them ample opportunity to repeat and practice.

We have created stories, activities, and simple resources to help the teachers further help the children.

1. The letter names are taught at the Pre-Nursery level, and incidentally phonic sounds are introduced through simple rhymes.
2. Nursery: The sound that each letter stands for is taught and revised. Some rules or generalisations might be discussed.

3. Nursery and Kindergarten: The principle of blending sounds to form words is introduced.

4. Introduce the sight words and incidental reading gradually.

By the end of Kindergarten we hope the children will be able to display the following skills:

- a large and growing vocabulary,
- development of verbal expression and fluency,
- knowledge of the world around them,
- sound-symbol association,
- understanding that sounds are represented by letters/letter groups (phonemes and graphemes),
- understanding that words are made of sounds so learning them can make spelling and reading easy,
- understanding that sounds can be represented by different letters/letter groups,
- helping the children become aware of the simple code, and lay the foundation for understanding the other combinations of letter groups as they grow.

**Why do we teach children the names of the letter first rather than sounds?**

Names are for awareness of the alphabet. It is for children to understand that it’s these 26 letter shapes that represent the 44 sounds and more than 100 combinations:

- knowing the names of the letters helps children grasp the alphabetic principle: the notion that there are 26 letters and that each letter stands for a sound and letters can be combined to represent more sounds.
- knowing the names provides you with instructional labels that are familiar to children. It also helps in explaining that just like every other object, letters have their own names too.
- most letter names are closely related to their sounds.
- 20 letters contain the most common sound assigned to them in their names (say the names of a, b, d, e, f, i, j, k, l, m, n, o, p, r, s, t, u, v, x, z).
- the exceptions are c, h, q, w, y, g, and the short vowels.

PHONIC LETTER GROUPS

This series suggests simple activities and word building with flash cards to help the pre-primary children develop a sound symbol association to build on.

Teachers can use the given table as a reference and should only introduce what the children are ready for. Please do not hurry the learning and allow children time to enjoy the world of sounds and words.

**Kindergarten Flash cards Set**

Make three bundles of flash cards with each set:

Set 1: a-z

Set 2: More sounds

Set 3: Sight words

Flash cards have been included in all the three student’s books and can be used in the following ways:

**Activity 1:**

Seat the children in small groups in rows facing one direction. Give each group 1 set of a to z flash cards sets in a bowl. Ask them to distribute the cards amongst themselves and arrange them from a to z.

**Activity 2:**

Give the children two sets of cards and ask them to match the upper and lower case letters.

**Activity 3:**

Give the children one set of flash cards to separate the vowels and consonants.

**Activity 4:**

Seat the children in small groups. Ask them to distribute the flash cards among themselves. Flash picture flash cards one by one, asking the children to name them and to flash the first letter of each picture in return. This helps children identify the first letter.
Activity 5:
Seat the children in pairs and ask them to arrange the flash cards in order from A to Z.
The teacher can use stick puppets placed in the Learning Train to demonstrate how they can combine two letters to say the sounds.

Chunks with vowels and consonants

Activity 6:
Make sentences using the sight word flash cards given in the student’s books and ask the children to build CVC words to complete the sentence.

Making sentences

This is a hen.

Activity 7:
Give the children a to z flash cards sets and a set of the diagraph cards given with the flash card set.

Listen and sort

Build words

Teacher can say the sounds and the children can try to find and separate the symbols.
ACTIVITY BANK FOR PHONICS

Phonemic Awareness: Refers to sounds of the spoken language.

Phonics Activity 1: The Silence Game

Materials Checklist:
- Bell
- Silence board

Instructions:
1. Invite the whole class together to come and participate in the ‘Silence Game’.
2. Tell the children that they will be silent together. But in order to be silent, they must not make a noise (make any sound or say anything).
3. Introduce the silence board by showing the kids a board and explaining that on one side there is the word ‘silence’/an indicative picture. On the other side, there is a picture of a bell/children playing. Ask them to be quiet when they see the word ‘silence’/picture. When they see the picture of children playing/bell on the opposite side of the board, they can move.
4. Flash the silence card. Ask them to keep one body part still at a time e.g., ‘Let’s keep our feet still/feet and knees still/feet, knees, and hands still/feet, knees, hands, and head still’, and keep going on in the same manner till they can keep the whole body still for some time.
5. Ask them to listen to the sounds around them when they are silent and ask them later about the sounds they heard.
6. Be sensitive to children with hearing impairments. They can be engaged in a colouring or sensorial activity.

Phonics Activity 2a: Sounds Around Me

Materials Checklist:
- Curtain
- Bell
- Ball
- Pencil
- Sharpener
- Newspaper
- Small jug of water and glasses
- Tambourine
- Whistle
- Musical instruments
- Page 1 of the student’s book

Instructions:
1. Place all the objects behind a curtain. Let the children hear one sound at a time and try to name the objects.
2. Place the objects on a table for the children to take turns and explore the sounds.

Phonics Activity 2b: My Body Sounds

Instructions:
1. Introduce/demonstrate the sounds: gargle, giggle, laugh, sing, talk, whisper, sniff, cough, sneeze, stamp, clap, click, and breathe.
2. Call out the words one by one and ask the children to act them out.
Please note: The activities that help children develop an awareness of sounds also help the children to become sensitive to sounds of the letters/blends. This is required for word building.

**Phonics Activity 3a: Animal Sounds**

**Materials Checklist:**
- Animal picture cards (5 or 6 pairs of animals and their babies)

**Instructions:**
1. Distribute the animal cards to small groups of children and ask them not to show them to anyone. Flash any one of the cards distributed and say the sound the animal on that card makes. Ask only the group of children with that animal to repeat the sound.
2. You can repeat this activity until each group has had a chance to make an animal sound.
   Or/and
3. Distribute the animals and their babies cards.
4. Ask the children to group into animals and babies.
5. Ask the children with the animal cards to close their eyes and then ask the children holding the cards with babies to hide.
6. Ask one child with the animal card at a time to say the sounds of the animals and ask the babies to respond from where they are hiding.
7. Children have to find each other following the sounds.

**Phonics Activity 3b: Matching Letters**

**Materials Checklist**
- Stick puppets of upper case letters and lower case letters

**Instructions:**
1. Ask the children to match the upper case letter stick puppets with the lower case letter stick puppets.

**Phonics Activity 4: Rhyming Words**

**Materials Checklist:**
- Picture/word stick puppets (use the illustration from the books to make the puppets) (have 3-4 rhyming words in each string)

```
<table>
<thead>
<tr>
<th>cat</th>
<th>hat</th>
<th>rat</th>
</tr>
</thead>
<tbody>
<tr>
<td>![Cat]</td>
<td>![Hat]</td>
<td>![Rat]</td>
</tr>
</tbody>
</table>
```

**Instructions:**
1. Randomly distribute the stick puppets.
2. Place one card at a time from each string in the Learning Train’s pockets and ask the children with the rhyming puppets to come and place them in the train.
   Or/and
3. Call one child from each string to come and stand in front of the class.
4. Ask the children with the other stick puppets to name each picture and check if the picture they are holding rhymes with that name. They can then stand behind the first child.
   Or/and
5. Randomly distribute the cards and ask the children to group according to the rhyming strings.
Phonic Activity 5: Odd One Out

Materials Checklist:
- 15 cm x 5 cm picture/word strips (4 pictures/words pasted on a strip with one odd one out from the rest)
- Card sheet counters (refer to the ‘Handmade Resources’ section of the TG)

Instructions:
1. Children to sit in pairs. Ask them to pick up one strip each and name the pictures or read the words on it.
2. They can then mark the odd one out with the help of a card sheet counter.
3. The children can exchange the strips and continue till all the pairs have had a chance.
   Or/and
4. Say the three rhyming words at a time with one odd one and ask the children to repeat and say which the odd one is, or just to listen and repeat the ones that rhyme.

Phonic Activity 6: Say the Sounds and the Alphabet

Materials Checklist:
- Pages 2–5 of the student’s book
- Alphabet Frieze
- Flash cards (from the student’s book)

Instructions:
1. Use the Alphabet Frieze pocket chart to recap the letter shapes and sounds in order.
2. Use the upper and lower case letter stick puppets (to match and understand that both have the same names and sounds) and notice the similarities and differences in the letter shapes.
3. Use the given flash cards to place in order and recap the letters.
4. Use related picture puppets and place them in the frieze pockets.
5. Use pages in the student’s books with the Alphabet in order to practice regularly.
6. Use the coloured trains given in the Stories and Reading Skills Reader for Kindergarten. Pre-Nursery can borrow the readers for their children or just make coloured pocket trains and use the stick puppets to recap.

Phonics Activity 7: Alliteration

Materials Checklist:
- List of alliterative words (words beginning with the same sounds close to each other)

Instructions:
1. Use the following list for the children to listen to and try to repeat. Add to the list as per the abilities of your children:
   - The cook can cook cookies.
   - The big bug bit the bear.
   - Micky Mouse met Minnie Mouse.
   - She sells sea shells on the sea shore.
   - Penny the parrot picked the peppers.

- Alphabet song, Phonic song, Phonic rhymes
- Alphabet Frieze pocket chart
• Stick puppets of upper and lower case letters
• Flash cards sets provided in the books

Instructions:
1. Use different sources to help the children practice the phonic sounds in order of the alphabet and in random order.
2. Distribute stick puppets and ask the children to place them in the correct pockets in the alphabet frieze.
   Or/and
3. Ask the children to place their fingers and point to the letters as they sing the rhymes and song.
   Or/and
4. Ask the children to arrange the flash cards in order as they sing the song/rhymes.

Phonics Activity 8b: Phonic Sounds in Random Order/Sound Groups

Materials Checklist:

   Or/and
2. Repeat the above activity (Phonics Activity 8a) with sounds in the following sound groups:
   Group 1: s-a-t-i-p-n  Group 2: k-c-e-h-r-m-d  Group 3: g-o-u-l-f-b  Group 4: j-z-v-w-y-x-q

Phonics Activity 9: Vowels and Consonants

Materials Checklist:
• Letters
• Stick puppets
• Flash cards

Instructions:
1. Give the children the stick puppets/flash cards to separate the vowels and consonants.
2. Draw their attention to the colours blue for consonants and red for vowels to help them group them.
   Or/and
3. Distribute the pictures behind which the consonants are written so that if the children flash the picture at the class the letter is facing them. Use at least 3–4 pictures per consonant.
4. Ask the child with the consonant card to stand in the front and ask the children with the pictures to come forward and make a group.
5. Once two consonants are done you can mix the pictures and ask the children to find their related pictures.
   Or/and
6. Play dog and the bone. Drop a few letters in the middle of a circle. Teams of 3–4 children can send one child who moves in a circle with the other appointed children from each group. As the teacher calls out a sound, the children have to identify the letter and the one who picks the right letter and runs back to the team wins.
Or/and
7. The children must be able to place the pictures in the correct a to z pockets.
   Or/and
8. The teacher can distribute the letters and say that now we only want the letters that the 
   teacher calls for. You can sing phonic rhymes in random order and ask the children to sing 
   along. The child holding that letter shape can jump into the circle.

Phonics Activity 10: Bingo

Materials Checklist:
- Bingo cards (make 6–7 combinations of cards and laminate them)
- Card sheet counters of the size of the blocks on the cards
- Bowl
- Flash card set

Instructions:
1. Distribute the cards and counters to the children and place one set of flash cards in a 
   bowl.
2. Keep picking one card at a time and calling out the sound.
3. Ask the children to keep covering the letters that represent the sound and shout 
   out Bingo when they have covered all the letter shapes on their cards.

Phonic Activity 11: Segmenting (Sound to print)

Instructions:
Say the sounds slowly to identify each sound in a word. Use your left hand 
to tally each sound in a word starting with your thumb.
1. Say the word slowly, starting with one syllable words.
2. Break it into sounds (c-a-t) and count the sounds as you open your fingers.
3. Children can repeat this with the teacher regularly.
4. Once the children can understand and do this activity, they can be asked to draw the corresponding 
   number of dashes ____ _____ _ and then write the related graphemes. c a t
5. Then draw a single line and write the complete word cat and read it.

Phonic Activity 12: Blending (Print to sound)

Instructions:
1. Start with the parts – sounds – /c/ /a/ /t/ and then say the word. Here the children see the 
   graphemes or letter shapes and say the sounds.
2. Say the sounds slowly from left to right and blend the sound.
3. Point to each letter/letter group as you say the sound.
4. Run your finger from left to right and say the whole word aloud.
Phonics Activity 13: Sound and Letter Trains
Material Checklist:
• Letters and Sounds Train given on pages 14–17 of the Kindergarten Stories and Reading skills Reader
• Flash cards
Instructions:
1. The flash cards and trains have been colour coded for Kindergarten. The children can group themselves into pink, yellow, blue, and orange groups and recap the sounds that the letters in that group represent.
2. The children can arrange the flash cards related with one train at a time, and use the sound and letter shapes to build words.

Please Note: Introduce the first four trains (pink, yellow, blue, and orange) at an interval of 1–2 weeks gaps between each train and then give the children ample time to practice word building.
Introduce the next four trains (green, purple, dark blue, and brown) after the children have completed all the CVC words and strings.
Change of sequence of sounds: The dark blue train of diagraphs can be introduced after the orange train if the children are finding the long vowel sound difficult to learn.

Phonics Activity 14: Long Vowel Sounds
Material Checklist:
• Flash cards (given with the student’s books).
Instructions:
1. Tell the children that in some words the vowel say their own name but have one more letter to help them. Introduce the simple rule: When two vowels go walking, the first one does the talking.
2. Give the children the flash cards and help them to build a few words.

Phonic Activity 15: Diagraphs
Two consonants making one sound e.g. sh, ch, th, wh, ph, ng.
Material Checklist:
• Page 16 of Stories and Reading Skills Reader
• Flash cards of letters
Instructions:
1. Introduce the diagraph train (dark blue in colour).
2. Introduce the sounds and symbols one by one. Tell the students that they together make a new sound and this is how its represented. Avoid using the names of the letters s or h or the sounds /s/ /h/ —just show sh on a cards and say /sh/ as in sheep.
3. Ask the children to build simple words combining the diagraphs with the single letter symbols of the vowels and consonants.

sh i p
Phonics Activity 16: Blends
Two consonants blending but each sound can be distinguished.

Material Checklist:
- Individual consonant cards and blended sound cards
- 5 cm x 10 cm stick puppets – 10 cm pocket trains

Instructions:
- Ask the children to name all the pictures given on pages 98–99 and draw their attention to the first blended sounds in the words.
- Choose the 5 cm x 10 cm letter stick puppets that will help the children to build blends and flash pictures for the children to name (in this case frog). Tell the children with the related puppets to name and place the letters in a single pocket in the train to show the blend.
- Give the children a to z flash cards to listen to words and place the correct letters to build the sounds.

Phonics Activity 17: Clap the Syllable In Your Name

Instructions:
1. Demonstrate how each name can be broken into syllables and ask the children to clap that number of times.
2. Ask the children to name different objects and clap the syllables, for example Ri-da—2 syllables, e-le-phant—3 syllables, pen-cil—2 syllables.

Phonics Activity 18: Homophones
Words that sound the same but have different meanings and are spelt differently.
Please note this concept may be difficult at this stage of learning and is being mentioned here to give a simple insight to teachers. It may be used in Class 1 when the children are ready.
Activity 1a: Pair the Same Pictures

Materials Checklist:
- Picture puppets of random illustrations taken from the student’s book (in pairs)

2. Seat children in small groups. Give one bingo card and a few counters to each group.
3. Ask children to place the counters before them.
4. Tell your students to take turns and match the counters on the bingo cards.

Materials Checklist:
- One cut-out of a circle of 6 cm diameter (for each child)
- One cut-out of hat (for each child)
- One cut-out of a square/triangle (for each child)
- One ice cream stick (for each child)
- Adhesive
- Pencils
- Baskets

Instructions:
1. Place the cut-outs of the circles, hats, squares, and triangles in baskets.
2. Pass the baskets around. Ask each child to pick up one circle, one hat, one stick and a triangle (for girls) or a square (for boys).
3. Give pencils to children and encourage them to draw their faces on the circles. If children are unable to do so, help them to draw the faces.
4. Help children to spread adhesive on the sticks and paste the circles, the hats, and then the triangles/squares to complete the puppet of a girl or boy respectively.
5. Collect the puppets and write the names of the children with a marker on the hats.

Note: These puppets can then be laminated and kept in the class for children to:
- Identify self: gender
- Identify and read their names
- Place the puppets in the Alphabet Frieze for the children to identify. Ask them to match the first letter of their names with the corresponding letter in the frieze.

Activity 3: Name Labels

Materials Checklist:
- One sheet of chart paper
- Scissors
- Marker
- Adhesive

Instructions:
1. Cut the chart paper into strips, and write children’s names on the strips to make name labels.
2. Paste the name labels on chairs. Ask children to identify their names using their puppets of girls/boys (refer to the previous activity).
Activity 4: Alphabet Frieze  
Refer to the ‘Creating Classroom Resources’ section of the TG.

- Adhesive  
- Learning Train  

Instructions:  
1. Make letter puppets of upper and lower case letters. Write the vowels with a red marker and consonants with a black marker on cards and paste them on sticks to make the puppets.  
2. Distribute the puppets among children. Ask children to find their partners (children with upper case letters should pair up with children who have the corresponding lower case letters) and place the puppets in the Learning Train.

Activity 7: ‘Aa’ to ‘Zz’

Good morning! When the sun comes out,

Good evening! When it is not so bright,
Good night! When it is gone and is night.
Good day! We can say all day long,
This is our greeting song!
Goodbye! When we go,
Salam! Aadaab! and Hello!
Are greetings too, did you know?

Settling Down in Class!

I shake my fingers, I wriggle my toes,
I shrug my shoulders, I twitch my nose.
Till no more shakes and wriggles are left in me,
I sit as quietly as can be!
Little hands go up and little hands go down,
Slowly, slowly roll them around.
Little feet jump up and little feet jump down,
Now keep them still and make no sound!
Hello, everyone! We are back at school, hurray!
Quickly find a friend and ask, ‘How are you today?’
Let’s tiptoe to the circle to talk, sing, and play!
So roll your hands slowly and roll them really fast,
Quickly, quickly, come along and sit with the class.

The Fun Rhyme

It’s /f/-/f/ fun to be this,
It’s fun to be that.
To leap like a lamb,

Assessment at this level is usually informal and a continuous part of teaching and learning. Various tools and activities can be used to observe and record the progress of children. No formal testing is recommended at this level.

**Assessment helps:**
- to improve or modify learner’s experience according to their needs;
- to change the pace and planning of the lessons/syllabus to suit the learning levels of the learners;
- to help the teacher and parents understand the needs of the learners.

**How to record/gather information for assessment:**
- Learning levels can be gauged through observation. An observation checklist can be used to identify the student’s progress and gap areas in each topic. The feedback gathered can aid in the designing of remedial/reinforcement activities. A sample observation checklist has been given on the next page. Teachers can modify it to suit their needs.
- Portfolios of children’s work (worksheets, drawings, and so on) should be maintained to track their progress. Parents and children can revisit the portfolios as and when required.
- An anecdotal record (record of an incident that has a significant impact on the development of a child) can be maintained.

The student’s books have the following child-friendly logos to assess the learning levels of children:

<table>
<thead>
<tr>
<th>Logo</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>😊</td>
<td>Exceeds learning expectations. Can work independently all the time.</td>
</tr>
<tr>
<td>⭐</td>
<td>Meets learning expectations. Can work independently most of the time.</td>
</tr>
<tr>
<td>🌸</td>
<td>Needs nurturing and care. Needs adult support most of the time.</td>
</tr>
<tr>
<td>🌸</td>
<td>Is moving towards the learning expectations. Can work independently sometimes.</td>
</tr>
</tbody>
</table>

**Criteria to decide informal assessment pattern:**
- The number of children in each class should be taken into consideration.
- Learning objectives should be commensurate with the time available and the activities planned towards achieving those objectives.
- Learning levels of children should lead the curriculum and not vice versa.

Note to the teacher: Say the sounds as you see each grapheme/letter or letter groups to learn the basic sound-symbol association. Avoid using the names of letters while practicing the sounds. The given pictures help to say the sounds that the graphemes/letter/letter groups represent. Learning must not be hurried and regular practice must be given with flash cards.
