My Learning Train is a complete activity-based interactive pre-primary series comprising of 18 books across three levels—Pre-Nursery, Nursery, and Kindergarten with an inbuilt self-training programme for teachers and a comprehensive set of tools for the learners. This series has been designed to guide the children through their first steps of learning to make learning enjoyable through a variety of activities, and aid cognitive and overall development through a wide range of experiences and activities.

My Learning Train – Pre-Nursery, Nursery, and Kindergarten

- **World of Letters**: Supported by a Stories and Reading Skills Reader and Activity Guide for Parents.

  The series is based on a simple activity based programme to help the little learners understand the sound-symbol association and develop spelling and reading skills.

- **World of Numbers**: Supported by practice/assessment worksheets booklet and Activity Guide for Parents.

- **World Around Me**: Supported by an inbuilt comprehensive easy-to-do life skill activity list in the books itself, practice worksheets booklet, and Activity Guide for Parents.

Multiple Intelligence and Learning

Each individual has a unique combination of intelligences and needs the opportunity to develop it through different experiences. Children have different styles, needs, and interests. They should be given the space to perform according to their individual abilities. Development generally follows a pattern and the stages are the same, though the rate of development varies from one child to another even within the same age group. To help teachers facilitate the children, a large bank of activities has been given to choose from. All activities are not mandatory.

Multiple Intelligence and their unique combinations make each learner unique.

**Verbal-Linguistic Intelligence**

Is the ability to use language and vocabulary efficiently, either verbally or in writing. Early childhood is the time when children rapidly acquire language. They need a wide range of experiences to learn from pictures, songs, stories, free expression, flash cards, and board games.

**Logical-Mathematical Intelligence**

Is the ability to solve problems and deduce a numerical in a scientific problem logically. Give the children opportunity to think and reason, form memories, recall, visualise objects which are not immediately present, and solve simple problems.

**Musical Intelligence**

Is a strong auditory intelligence characterised by a sense of rhythm, music, and hearing. Children should be free to express themselves and given ample opportunity to use rhythm and music for learning.

**Visual-Spatial Intelligence**

Is characterised by a strong visual memory and the ability to mentally map spaces. Drawing, tracing activities, and visual aids are useful for spatially smart learners. Children learn better when a greater number of senses are engaged through activities.

**Logical-Mathematical Intelligence**

Is the ability to solve problems and deduce a numerical in a scientific problem logically. Give the children opportunity to think and reason, form memories, recall, visualise objects which are not immediately present, and solve simple problems.

**Interpersonal Intelligence**

Reflects the ability to understand and perceive other people’s moods, feelings, and intentions. Interpersonal intelligence indicates a child’s ability to interact with adults and peers, and develop healthy relationships with others.

**Intrapersonal Intelligence**

Is characterised by the ability to understand the self, needs, desires, and limitations. It reflects children’s awareness of their feelings, likes, dislikes, and self-esteem. It also indicates their ability to express feelings and react to others as well.

**Bodily Kinesthetic Intelligence**

Is related to physical activity and the ability to control bodily motion. Learners with this type of intelligence learn faster using the hands-on approach. They need experiences to develop motor skills. Large motor skills involve movement of large muscles to bring about actions. Fine motor skills involve movement which involve small muscles.

**Musical Intelligence**

Is a strong auditory intelligence characterised by a sense of rhythm, music, and hearing. Children should be free to express themselves and given ample opportunity to use rhythm and music for learning.

**Visual-Spatial Intelligence**

Is characterised by a strong visual memory and the ability to mentally map spaces. Drawing, tracing activities, and visual aids are useful for spatially smart learners. Children learn better when a greater number of senses are engaged through activities.

**Naturalistic Intelligence**

Imply an affinity towards nature, i.e. plants and animals. The outdoors benefits such learners. Appreciation of nature should be included early in life by giving children a chance to explore nature around them.

Activity Based Environment—Checklist for Teachers and Coordinators

Planning Time for Activities

*My Learning Train* is designed as a series for children and as a tool for teachers.

- The books and resources help teachers to create an interactive activity based learning environment.
- The Activity Guide for Parents included in the supplementary readers/worksheets facilitate the parents to do the same at home. *My Learning Train* facilitates teachers in creating a student-centric classroom.

**Class Division/Settings for Activities**

In the classroom, teachers can interact with learners in different ways. Using the most appropriate interactive activity is a fundamental factor in the success of any lesson. Here are five suggested interactive strategies for various activities proposed in the book:

<table>
<thead>
<tr>
<th>Activity Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Large Group Activities</td>
<td>Children form part of a big group (in the shape of a circle/square/rectangle) with the teacher. The teacher can play the tambourine, ring a bell, or sing a song with the students for the class activity.</td>
</tr>
<tr>
<td>Pair Activities</td>
<td>Here the learners work in pairs at their desks/activity space.</td>
</tr>
<tr>
<td>Small Group Activities</td>
<td>Children can be divided into groups of 4/6 depending on the activity, and all the groups are to carry out the activity simultaneously. The group starts the particular activity together and they are facilitated by the teacher. The teacher can use colour-coded cards or cut-outs to divide the class into groups.</td>
</tr>
<tr>
<td>Individual Activities</td>
<td>Here children work by themselves. Teachers should facilitate the students.</td>
</tr>
<tr>
<td>Team Activities</td>
<td>Here the class is divided into two teams for activity time.</td>
</tr>
</tbody>
</table>

Present below are a few suggestions for helping children understand the settings in which the activities need to be conducted.

- Plan the settings and instructions that you will tell children for each activity beforehand.
- Keep the instructions short and precise.
- Plan 2–3 instructions for Pre-Nursery and Nursery, and not more than 4–5 instructions at a time for Kindergarten.
- Talking Hand: Instead of teachers repeating the instructions, ask the children to listen and repeat the instructions by closing their left fist self-facing, opening one finger at a time, and repeating the instructions a few times before the activity.
- The Talking Hand will later be used for blending and segmenting sounds in words and counting syllables as the children progress.
- Rhymes such as ‘Good Morning’ from the student’s book, *World Around Me Kindergarten* (page 2) can be used for a pair activity where the children find a partner and say, ‘Good Morning’.
Activity Kit and Resource Centre

A simple hands-on Activity Kit can help the teachers conduct a large number of activities. Activities can mostly be made with 10 cm x 10 cm cards, stationery, and daily tools that are easily accessible to teachers. The following tools have been suggested after keeping in mind the general availability of material across regions and schools.

**Essential Materials Required for the Activity Kit**

Resource Management

- List out all your resources and update the list regularly.
- Fill in the resource information list detailing all the resources you have created so that other teachers can share it too. Have a digital space assigned to easily conduct activities with digital resources to reduce use of attendance registers and paper.
- Always stock supplies in advance.
- Use even the smallest low-cost resource carefully and avoid any kind of wastage.
- Reuse and recycle everything you can.
- Have a place for everything and encourage children to keep everything in its place.
- Encourage proper handling by children of materials right from the beginning.
- Encourage active participation of students in class. Allot tasks to the children and encourage them to take on responsibility.

Frequently Asked Questions

Q: How will we finish our syllabus if we conduct activities? What will the parents say? Activities and experiences are an integral part of the pre-primary syllabus. It is only after children do activities that we should guide them towards writing, following the cycle: Listening – Speaking – Reading – Writing. Activities will manifest in skills of the learners, who will be able to show parents how and what they have learnt. This series also includes activity suggestions for parents, which they can conduct at home to reinforce topics taught in schools.

Q: How can activities be conducted with a large class size? Activities can be conducted in varied settings and are designed to cater to average class sizes—very large class sizes in pre-primary must be avoided.

Q: How can we conduct all the activities within our lesson time? Doing all the activities is not mandatory. However, it should be noted that each activity suggested has been classroom tested and is designed to be short as per the attention spans of the children, so they can be easily applied in the classroom—they go hand-in-hand with the curriculum.
Resources of the Student’s Books

WALK-THROUGH
Walks the teachers and parents through the features of the book with examples.

TABLE OF CONTENTS AND ACTIVITY GUIDE
Teachers can choose and plan from this list according to the needs of their classes.

STICKERS
Sticker activities can be sent home for one to one activity time with the parents.

Flash cards
Flash cards are a very important teaching and learning tool. These must be given to the children at regular intervals.

- Remove the flash cards from the perforation near the binding as soon as the children bring the books to school.
- Number each complete set with one number or symbol for easy identification. For example, all the cards of the first set should be marked with the same symbol. This helps when the cards get mixed up.
- The set of flash cards sets can be used with pair/small/large group activities.
- Use flash cards for individual activities for observation and assessment of learning.
- Start by using only 10 sets of flash cards and add as required. Use the other sets to create games and stick puppets.
Managing Flash Cards – Distribution and Collection

Bring 10 bowls to the class. Write the numbers 1 to 10 on the bowls with markers. Cover the numbers written on the bowls with transparent adhesive tape. Place the flash cards according to their numbers in bowls. Children can collect the bowls number-wise and put them back in their places after an activity.

Stories and Reading Skills Reader

Supplement for vocabulary building, introduction to phonics, and reading skills.

Please Note: Most of the stories will have to be read out to the children at this stage and have been created for the development of spoken vocabulary and comprehension.

The stories and rhymes can be used for the following activities:

- Point to the pictures on the story pages and narrate the story.
- Encourage the children to answer questions about the story.
- Revisit the story and pause in between so that the children can complete the story.
- Make stick puppets for the stories and narrate the stories with the puppets in your hands.
- Ask the children to look into the mirror and say a few lines about themselves.
- Buddy reading—pair the children for picture reading and narration.
- Ask the children to speak small dialogues and enact the story.
Parents Activity Guide

A pull-out activity guide for parents is added within the World of Letters, World of Numbers, and World Around Me readers/worksheets.

It provides detailed activity suggestions for parents to easily follow at home to help develop their child’s skills and reinforce topics taught in school.

Please Note: The Activity Map and the Weekly Planning Guide will help the teacher to plan and map activities in school.
The following table maps the activities and the teaching guide page numbers to the pages of the student’s book to help teachers see the activities at a glance and plan. All activities are not mandatory and teachers can choose from the list.

**Stories and Reading Skills Reader**

The stories and reading skill reader is an informal way to introduce the children to the wonder of stories which the teachers and parents can read out to the children. The focus at this level is to help the children build a rich vocabulary and be able to express themselves in simple words and sentences. The pictures will guide them and gradually they will be able to start relating words to their meanings.
Please Note: Story time should be fun! Give the children enough opportunity to revisit these stories later. The stories can be modified/shortened/lengthened according to the abilities of the children. They can be repeated in all three levels in different ways to help the children boost comprehension, and develop their verbal skills. Children must not be forced to memorise (rote learn) and repeat the stories without understanding what they are saying.

**WEEKLY PLANNING GUIDE**

**Please Note:** The below mentioned weekly planning guide can be modified to suit the learners’ needs and the classroom environment.

- The suggested design of the book is for 30–32 weeks of instruction time. Given below is a broad break-up of the syllabus, which can be modified according to the school’s timetable.
- Use all the given resources both in the student’s book as well as the teaching guide.
- The Parents Activity Guide is a part of the readers/worksheets booklets. It can be photocopied and given to the parents as and when required.
- Rhymes and stories can be used as activity and listening speaking tools and their memorisation must not be forced. Rhyme 2 is optional and can be used only if required.
- Stories and Reading Skills Reader (SR) can be used to complement the student’s book. It can be used to read stories to the children, as well as help them picture-read.
- The learning environment should be safe and full of experiences, where the children can play and learn at the same time.

**Focus:**
* Development of verbal skills,
* Recognition of letters,
* Naming letters and understanding that the upper and lower case letters have the same name and later that they represent the same sound,
* Tracing of letters following the correct order of strokes,
* Incidental introduction to the phonics sounds.

Revisit the letters and observe if the children can recognise and name them.
STORING AND MANAGING MATERIALS

**Colour-Coding:** Labels of various colours can be used to differentiate between the materials made by the teacher for different subjects. For example, an orange label can be pasted on a packet carrying material for an English activity, a purple label can be used for Maths, and a light blue label for General Knowledge.

**Number-Coding:** Each packet can be given its own particular alpha-numeric code to act as a reference. This way teachers can easily identify the resource later. For example, you can use ‘E’ to represent English, ‘M’ for Maths, and ‘GK’ for General Knowledge. Refer to the given image below to use as an example:

</tbody>

**Recording in a Diary:** The teaching resources created and used for activities should be noted down in the teacher’s diary to create a database which the teacher can use in future.

The following format can be used to make entries in the teacher’s diary. This will enable teachers to reuse resources easily in future.

<td>E1 A to Z (2 sets)</td>
</tr>
</tbody>
</table>

**Saving, Reusing, and Modifying:** If the materials are laminated and used carefully, they can be used in the next session.

**Worksheets:** Worksheets should be used together with activities mentioned in the student’s books and teaching guides to reinforce topics taught at that level. Worksheets should be regularly sent to parents if children need to revisit the topic taught in school. This can be achieved if some of the worksheets are pasted in the children’s notebooks.

**Storing Flash Cards:** Each book has been provided with a set of flash cards. This is how you can store them:

- Number the flash cards of each book (with a permanent marker) with the roll numbers of the children.
- Numbering the flash cards helps you to place the cards with the correct set if they get mixed up. Give children the opportunity to read them for a day or two as reading sheets before tearing them into flash cards.
- Get a set of transparent resealable bags to store the cards.
- You can also devise your own methods of storage as per your convenience.
Making ‘My Learning Train’ for the Classroom

The method to create the resource known as ‘My Learning Train’ for classroom usage is given below. It must be placed where children can reach easily. The number of pockets in the train can vary according to the space available in the classroom.

Materials Checklist:

- Four chart paper strips of dimensions 70 cm × 19 cm
- One chart paper strip of dimensions 19 cm × 20 cm
- Twenty-six 10 cm × 10 cm cards of different colours
- Adhesive

Instructions:

1. Place the cards on the chart paper strips to get the spacing right.
2. Spread adhesive on three sides of the cards and paste them to make pockets.
3. Put them up in a single row to make the Learning Train. Refer to the image below to use as an example:

![Image of a Learning Train]

Each card should have adhesive on 3 sides to make a pocket.

Stick Puppets

Stick puppets are a resource to be used for different activities mentioned in the ‘Activity Bank’ section of the teaching guide. They can be used for display and also as an interactive resource for activities.

Materials Checklist:

- 10 cm × 10 cm cards and 10 cm × 20 cm cards
- Pictures relevant to each activity (fruits, toys, etc.)
- Transparent packing tape
- Ice cream sticks
- Adhesive
- Recycled–reusable bags for storing resources.

Instructions:

1. You can write letters, words, numbers, or draw any illustration from the student’s books on cards to make stick puppets.
2. Paste the cards on sticks and make sets of stick puppets for the children to use. Refer to the given image.
3. Laminate with tape if required—please note that the children will be holding the material with the sticks.
4. Store in bags and label neatly.
5. Add the name of the set and the teacher who made it in the diary/register used for record keeping so that all the teachers know it is there and can share, exchange, and reuse to optimise each resource.

Please Note: For word-building exercises, letters can be written on 5 cm x 10 cm cards. Similarly, picture cards can be made by simply enlarging pictures from the student’s books and pasting them on 5 cm x 10 cm cards. They can be laminated for long-term use.
Alphabet Frieze

Materials Checklist (for each set):

- Two chart papers of the same colour
- One chart paper of a contrasting colour
- Twenty six 10 cm × 10 cm white cards
- Red and blue sketch pens and markers
- Small ruler
- Adhesive
- Transparent lamination tape

Instructions:

1. Draw 2 red and 2 blue horizontal lines (the top and bottom lines will be blue and the middle two will be red) using a small ruler on all the white cards (on which you will be writing your alphabets).
2. Write the capital and small case vowels in red, and the capital and small case consonants in blue.
3. Paste the two charts together to make a large sheet and place the cards on the charts in three rows:
   - Row 1: Aa to Ii
   - Row 2: Jj to Rr
   - Row 3: Ss to Zz
4. Pick up the cards one at a time and spread adhesive on only three edges. Keep one side open to make pockets. Paste the cards on the sheet as per the arrangement from point 3.
5. Cut the differently coloured chart in a semi-circle to make the front of an engine, the smoke spout, and the wheels. Paste these parts on the larger chart to complete the train.
6. Laminate the train using transparent adhesive tape to protect it. Make sure that the pockets remain open from the top.
7. Pin it up at the level of the children and let them start their journey with the alphabet.

Reading Wall

Materials Checklist:

- A sheet of chart paper
- 10 cm × 10 cm cards of various colours
- Adhesive
- Name puppets (of words to be introduced)

Instructions:

1. Apply adhesive on three sides of each flash card (to make pockets) and paste on the sheet of chart paper.
2. Place the name puppets in the Reading Wall pockets to introduce children to new words they can read. Name puppets can be made by writing words in a bold, clear font on a label (5 cm x 10 cm) and pasting it on an ice cream stick. Laminate if required.

**Theme Boards**

Theme boards are used to display images/scenes from stories (jungle, farm, rooms of a house, etc.). For theme boards, chart papers of different colours can be used to create different backgrounds as per the requirements of the activity (for example, jungle animals drawn or pasted for an activity related to the jungle.)

**Materials Checklist:**
- Chart papers of 2–3 colours
- Picture and word stick puppets

**Instructions:**
1. Cut the chart paper to the size of the required theme board. Draw or paste images on the chart paper as per requirement of your desired theme board, and slightly fold upwards from the bottom to make a pocket.
2. Staple the upward fold every 2/3 inches.
3. Fix the chart paper on the board and keep adding and removing the stick puppets as per the topic being taught in class.

**Strategies to Encourage Student Participation**

By making classroom activities highly interactive, teacher can promote optimal learner participation, leading to an urge to use language both in speech and writing. The selection of strategies is left to the discretion of the teacher. However, the following are recommended:
**Handwriting**

Writing skills are an important part of the learning process. Research suggests the order of learning should be as follows:

1. Sand play
2. Finger play
3. Sandpaper tracing
4. Scribbling using chalk and slate/crayons and drawing sheets
5. Painting
6. Moulding clay
7. Beading strings
8. Directionality (lines and curves following a simple pattern)
9. Air-writing
10. Rainbow writing (tracing over a stencil)
11. Developing the tripod grip with the help of normal sized pencils rather than thick ones as the children’s hands are smaller and they would find it easier
12. Recognition of letter/number shapes, tracing letters/numbers in the correct order and formation in hollow outlines, tracing on dotted lines, writing freehand, and writing independently.

**When to begin writing?**

Children should begin writing when their small muscles are strong enough to grip a pencil and are supported by a large number of pre-writing activities. Pre-writing activities should occur at the Pre-Nursery level, with tracing and simple transcription exercises at Nursery level, leading to writing independently in Kindergarten.

**Cursive or print?**

Start with a print-rich and print-script environment for the development of reading skills.

- Books/computers/signboards are all in print
- Simple directionality (lines and curves following a simple pattern) make writing easier
- Reading and writing one font/script will also make reading easier for children
- Flash cards with letters printed on them are easier to use to build words and can be read with ease
- Children can easily pick up cursive by the age of 6–7 if required

Start with simple print upper and lower case letters and let the children use these in all the three levels. Cursive as a writing style can be introduced even by the end of class 1 or the age of 6 to 7.

**Lower-case letters:**

- Starting counterclockwise: a, c, d, e, f, g, o, s, q
- Starting down: i, j, k, l, t, u
- Starting down and then going up: b, h, m, n, p, r
- Using diagonal lines: v, w, x, y, z

**Upper-case letters:**

- Straight lines: E, F, H, I, L, T
- Diagonal straight lines: A, K, M, N, V, W, X, Y, Z
- Lines and curves: B, D, J, P, R, U
- Starting counterclockwise: C, G, O, Q, S
Reading and Phonics

This series is a simple activity-based program designed for hands-on concept building of sound-symbol association for the pre-primary learners.

1. It was developed with activity ideas to help children between the age groups of 3–5 understand the letter-sound correspondences of 26 letters and 43–44 sounds.
2. It should be introduced as a light explorative program, and children can be encouraged to learn at their own pace. They should not be hurried to achieve pre-planned targets.
3. This series also empowers teachers to make simple resources using a low-cost kit.

A few tips:
1. Say the sounds correctly.
2. The phonics lessons should be short, direct, clear, and have room for practice.
3. Start with Readiness Activities: Children need to have a series of activities to get ready for phonics.
4. Do not hurry the children, and give them ample opportunity to repeat and practice.

We have created stories, activities, and simple resources to help the teachers further help the children.

1. The letter names are taught at the Pre-Nursery level, and incidentally phonic sounds are introduced through simple rhymes.
2. Nursery: The sound that each letter stands for is taught and revised. Some rules or generalisations might be discussed.
3. Nursery and Kindergarten: The principle of blending sounds to form words is introduced.
4. Introduce the sight words and incidental reading gradually.

By the end of Kindergarten we hope the children will be able to display the following skills:

• a large and growing vocabulary,
• development of verbal expression and fluency,
• knowledge of the world around them,
• sound-symbol association,
• understanding that sounds are represented by letters/letter groups (phonemes and graphemes),
• understanding that words are made of sounds so learning them can make spelling and reading easy,
• understanding that sounds can be represented by different letters/letter groups,
• helping the children become aware of the simple code, and lay the foundation for understanding the other combinations of letter groups as they grow.

Why do we teach children the names of the letter first rather than sounds?

Names are for awareness of the alphabet. It is for children to understand that it’s these 26 letter shapes that represent the 44 sounds and more than 100 combinations:

• knowing the names of the letters helps children grasp the alphabetic principle: the notion that there are 26 letters and that each letter stands for a sound and letters can be combined to represent more sounds.
• knowing the names provides you with instructional labels that are familiar to children. It also helps in explaining that just like every other object, letters have their own names too.
• most letter names are closely related to their sounds.
• 20 letters contain the most common sound assigned to them in their names (say the names of a-b-d-e-f-i-j-k-l-m-n-o-p-r-s-t-u-v-x-z).
• the exceptions are c, h, q, w, y, g, and the short vowels.
Sound Symbols at a glance: Make stick puppets for Pre-Nursery and give the children opportunity to recognise the letters and place them in the Alphabet Frieze pockets, both in order and in random order.

Use the stories given with each letter to introduce the vocabulary related to the sound each letter represents.
The following are a few activities that can be done with the help of the flash cards given in the World of Letters Pre-Nursery student’s book.

Activity 1:
Spread the flash cards in front of children. Display picture puppets (stick puppets with photocopies of the flash cards pasted on them) one by one and ask children to identify the pictures from the flash cards.

Activity 2:
Get two sets of flash cards and give them to the children to match and arrange. You can do this activity for both the picture flash cards and the letter flash cards.

Activity 3:
Arrange the flash cards in the same order as the Alphabet Train. Give flash card sets to children to arrange them in the same manner.

Activity 4:
Ask children to open page 2–3 of the book. Ask them to spread the flash cards. Display letter puppets one by one in random order. Ask children to identify the letter you are showing. They can place the relevant letter flash cards near the same letters on the page.

Activity 5:
Ask children to open the Meet the Letter page of the book with reference to the letter they are currently learning. Ask them to spread the flash cards and match the letter/picture flash cards with the letter/pictures on the page.

Activity 6:
Ask children to match letter flash cards to picture flash cards whose names begin with the letters children are learning.

Activity 7:
Ask children to arrange the flash cards in the same order as given on page 70 of the student’s book to see if they can recognise letters.

Activity 8:
Ask children to open pages 86–87 of the student’s book. Help them place the flash cards of letter groups on the pages.
Phonemic Awareness: Refers to sounds of the spoken language.

Phonics Activity 1: The Silence Game

Materials Checklist:
- Bell
- Silence board

Instructions:
1. Invite the whole class together to come and participate in the ‘Silence Game’.
2. Tell the children that they will be silent together. But in order to be silent, they must not make a noise (make any sound or say anything).
3. Introduce the silence board by showing the kids a board and explaining that on one side there is the word ‘silence’/an indicative picture. On the other side, there is a picture of a bell/children playing. Ask them to be quiet when they see the word ‘silence’/picture. When they see the picture of children playing/bell on the opposite side of the board, they can move.
4. Flash the silence card. Ask them to keep one body part still at a time e.g., ‘Let’s keep our feet still/feet and knees still/feet, knees, and hands still/feet, knees, hands, and head still’, and keep going on in the same manner till they can keep the whole body still for some time.
5. Ask them to listen to the sounds around them when they are silent and ask them later about the sounds they heard.
6. Be sensitive to children with hearing impairments. They can be engaged in a colouring or sensorial activity.

2. Call out the words one by one and ask the children to act them out.
Please note: The activities that help children develop an awareness of sounds also help the children to become sensitive to sounds of the letters/blends. This is required for word building.

**Phonics Activity 3a: Animal Sounds**

**Materials Checklist:**
- Animal picture cards (5 or 6 pairs of animals and their babies.)

**Instructions:**
1. Distribute the animal cards to small groups of children and ask them not to show them to anyone. Flash any one of the cards distributed and say the sound the animal on that card makes. Ask only the group of children with that animal to repeat the sound.

   - Or/and
3. Distribute the animals and their babies cards.
4. Ask the children to group into animals and babies.
5. Ask the children with the animal cards to close their eyes and then ask the children holding the cards with babies to hide.
6. Ask one child with the animal card at a time to say the sounds of the animals and ask the babies to respond from where they are hiding.
7. Children have to find each other following the sounds.

**Phonics Activity 3b: Matching Letters**

   - Or/and
3. Call one child from each string to come and stand in front of the class.
4. Ask the children with the other stick puppets to name each picture and check if the picture they are holding rhymes with the name. They can then stand behind the first child.
   - Or/and

Instructions:
1. Children to sit in pairs. Ask them to pick up one strip each and name the pictures or read the words.
2. They can then mark the odd one out with the help of a card sheet.
3. The children can exchange the strips and continue till all the pairs have had a chance.
   Or/and

3. Use the given flash cards to place in order and recap the letters.
4. Use related picture puppets and place them in the frieze pockets.
5. Use pages in the student’s books with the Alphabet Frieze in order to practice regularly.
6. Use the coloured trains in the Stories and Reading Skills Reader for Kindergarten – Pre-Nursery can borrow the readers for their children or just make coloured pocket trains and use the stick puppets to recap.

Phonic Activity 7: Alliteration

Materials Checklist:
- List of alliterative words (words beginning with the same sounds close to each other.)

3. Ask the children to keep covering the letters that represent the sound and shout out Bingo when they have covered all the letter shapes on their cards.
Guiding Puppets: Children at this level are beginning to build a new vocabulary and may not know the names of many of the things that will be needed to conduct the activities. It is suggested that you make a set of extra stick puppets of different things commonly used in a story, such as house, tree, village, etc, which will work as guiding puppets. Show these puppets to children as you say their names.

Instructions:
1. Set up your recording equipment (e.g. open the app in your phone which allows you to record sounds).
2. Once you click the ‘Start Recording’ button, ask the children to sing a rhyme one by one. After each child is done singing, pause the recording, and write down the name of the child along with the name of the rhyme that they sang.
3. Press the ‘Stop and Save’ button once you have completed the exercise with the whole class.

3. Put it up where children can reach it easily.
4. Show children how to place their finger on the dot and follow the direction of the arrow.
5. The awareness of 6–8 patterns will help children write letters and numbers. Start with single patterns and then put up different patterns together.

**Teacher Buzz:** The development of a sense of direction (top to bottom, left to right, clockwise, and anti-clockwise), and the awareness of left and right hands will help children develop their small muscles, and prepare them for writing at a later stage of development.

**Activity 13: Freehand Drawing**

**Materials Checklist:**
- Sand-tracing trays
- Chalks and slates/blank sheets and crayons

**Instructions:**
1. After children trace patterns using chalks and slates/blank sheets and crayons, they can practise further by tracing on the sand.

Activity 19: Arranging Blocks

Materials Checklist:
- Wooden blocks

Instructions:
1. Give children blocks to arrange in decreasing order of size.
2. Encourage them to arrange the blocks upwards like a tower and sideways like a train.

Teacher Buzz:
- You can give children sticks and place cards. Observe what they do when you do not give instructions. This is more natural and leads to incidental learning.
- Use charts to help children understand what different arrangements of sticks must look like. They also need to be able to connect the vocabulary to the concept in order to follow the instructions of the activities. This will help them do the activities independently.
- Introduce different patterns with a variety of activities and then give them the pages of the book to complete.
- Afterwards, they can open page 10 and 11 of the book and trace the different patterns.

Practice Activity: Rhyme Time
Instructions:
1. Sing the rhymes given in the book and the extra rhymes given in the TG for each letter. Encourage children to repeat them after you.

Practice Activity: Vocabulary Building
Instructions:
1. Introduce the name of the pictures given in the book and show children as many objects as possible.

Practice Activity: Rainbow Tracing
Instructions:
1. Bring a stencil and encourage children to trace the letters with their fingers. This will also help in developing small muscle control. They can also use crayons to trace and learn the letters.

Practice Activity: Activity Time
Instructions:
1. Help children do given activities with each letter. If required, a particular activity can be continued in the next session.

Practice Activity: Circle the Correct Letter
Instructions:
1. Help children do the visual discrimination activity included for each letter. This will help them recognise the letters. Since children of this level are very young, let them do this activity at their own pace.

Story Time for the letter Aa: The Ant and the Alligator
Annie was a small ant. Addie was a big alligator. Addie lived near an apple tree. Annie was walking along a path. She saw some arrows. She walked along to see where the arrows would take her. Annie reached a lake. There was an apple tree near the lake. She saw apples hanging from the tree. They were too high for her to reach. She saw a big alligator. She went to him and said, ‘Hello!’ Addie asked, ‘Who are you, little one?’ Annie said, ‘I am an ant. My name is Annie.’ Addie smiled and said, ‘I am an alligator. My name is Addie. How can I help you?’ Annie asked Addie to pluck an apple for her. Addie plucked an apple and cut it into half and gave it to Annie. Annie called all her ant friends and they all ate the apples together. They thanked Addie and built an ant hill near the tree. Addie and his ant friends lived together and Addie plucked apples for them every day.
(Story extension: You can explain to the children that many ants live in colonies, talk about the queen ant, the ants who guard the entrance, the way the food is stored for winters, weaver ants who weave leaves together to build homes, how ants talk by touching each other, how they share their tasks, and work really hard.)

**Rhyme Time: Miss Ant**

Hello, Miss Ant! What do I see?

3. Keep it on a low table for children to practise.
4. You can also introduce them to frames for buttons, hooks, buckles, and laces.

Teacher Buzz: The upper and lower case letter grids on page 70 of the student’s book can be used for identification and reading.
   a. You can call out the letters and children can identify the capital letters by placing a counter to show that they can recognise the letters.
   b. You can call out the letters and children can identify the upper and lower case letters.
   c. Children can colour the blocks to complete the activity only after the page has been used for recognition activities throughout the year.
   d. Children can open these pages and place the flash cards in the same order on their tables.

Practice Activity: Care and Share
Materials Checklist:
- Sandwiches/biscuits/cakes
- Nursery rhyme ‘Care and Share’

Instructions:
1. Seat children in pairs and give them snacks.
2. Ask them to share and eat.
3. Sing the rhyme ‘Care and Share’ that is given below.

   My teacher says to care and share,
   Like …
   The cows that share their milk,
   The caterpillars that give us silk!
   The bees that give us honey to eat,
   The trees that give us fruits for a treat!

Practice Activity: Story Time
Materials Checklist:
- Picture puppets (of images from the story on page 65 of student’s book)
- Page 65 of student’s book (World Around Me, Pre-Nursery Level)

Instructions:
1. Tell children the story ‘The Cats and the Monkeys’ (page 65 of World Around Me Pre-Nursery student’s book) using the picture puppets which can be put up in the Learning Train.
2. Repeat by asking them to picture read the story from their books.
3. Give them picture cards for matching to the pictures in the books, or for sequencing.
Teacher Buzz: The flash cards will help you to introduce the letters for recognition in order from A to Z and in random order. When children are getting ready for writing, it is simpler if they learn to trace letter groups that follow similar patterns. The writing of the letters must follow the recognition which can be developed through flash cards and related activities. Given below is the grouping of letters, according to the directionality and patterns.

Practice Activity: Letters with Ice cream Sticks

Materials Checklist:
- Ice cream sticks (10 for each child/20 for pair activity)

Instructions:
1. Children to be seated and given sticks to play with. Ask them to make anything they want with the sticks.
2. The next time you give them sticks, you can demonstrate how to arrange them to make letters.

Practice Activity: Matching Letters and Pictures

Materials Checklist:
- Flash card sets
- Pictures of objects beginning with the letters of the alphabet

Instructions:
1. Children to sit in small groups and give each group one card with the pictures and one set of flash cards.
2. Ask children to take a few cards each and place them in front with the letters facing upwards.
3. They can then take turns to match the pictures to the letters they have.
4. You can give them two sets of cards to play and match the letters to the pictures.

Practice Activity: Match the Lower Case Letters

Materials Checklist:
- Flash card sets
- Chart paper
Instructions:

1. Write the letters c, i, j, k, l, o, p, s, u, v, w, x, y, z on a chart and give children the full flash card set.

2. Tell them to spread the flash cards with the letters facing up and match them to the small case letters on the chart.

3. Make a chart with the other small case letters and see if children can repeat the activity.
How to Make Handmade Dice:

Step 1  Step 2  Step 3  Step 4  Step 5

Materials Checklist:
- Small rectangular cardboard box (e.g. a box in which toothpaste is bought)
- Six card sheets of various colours
- Scissors
- Adhesive
- Sketch pen
- Lamination tape

Instructions:
1. Step 1: Cut the box into two halves in such a way that three sides of the box are equal in size to the base of the box, and the remaining side is one and a half times longer than the base.
2. Step 2: Turn the longer side downwards, covering the open side of the box. Paste it to make a cube.
3. Step 3: Cut the coloured card sheets in squares equal in size to the sides of the cube.
4. Step 4: Paste them on the 6 sides of the cube and leave to dry.
5. Step 5: Draw the values or write the numbers 1 to 6 on the sides of the cube.
6. Laminate and use it in required activities.

How to Make Handmade Counters:

Counters are small circular disks used during activities in the student’s books. These enable the students to indicate that they recognise certain words/images/symbols on pages.

Materials Checklist:
- Card sheets of four colours or small lids from old bottles

Instructions:
1. Cut the card sheets into small counters which children can use.
2. You can also cover the top of lids from old bottles with coloured card sheets to make counters.
Assessment at this level is usually informal and a continuous part of teaching and learning. Various tools and activities can be used to observe and record the progress of children. No formal testing is recommended at this level.

**Assessment helps:**
- to improve or modify learner’s experience according to their needs;
- to change the pace and planning of the lessons/syllabus to suit the learning levels of the learners;
- to help the teacher and parents understand the needs of the learners.

**How to record/gather information for assessment:**
- Learning levels can be gauged through observation. An observation checklist can be used to identify the student’s progress and gap areas in each topic. The feedback gathered can aid in the designing of remedial/reinforcement activities. A sample observation checklist has been given on the next page. Teachers can modify it to suit their needs.
- Portfolios of children’s work (worksheets, drawings, and so on) should be maintained to track their progress. Parents and children can revisit the portfolios as and when required.
- An anecdotal record (record of an incident that has a significant impact on the development of a child) can be maintained.

The student’s books have the following child-friendly logos to assess the learning levels of children:

- **Exceeds learning expectations.** Can work independently all the time.
- **Meets learning expectations.** Can work independently most of the time.
- **Needs nurturing and care.** Needs adult support most of the time.
- **Is moving towards the learning expectations.** Can work independently sometimes.

**Criteria to decide informal assessment pattern:**
- The number of children in each class should be taken into consideration.
- Learning objectives should be commensurate with the time available and the activities planned towards achieving those objectives.
- Learning levels of children should lead the curriculum and not vice versa.

MY LETTERS AND SOUNDS TRAIN

Did you know? Words are made of sounds! Letters and letter groups are used to show the sounds that make words.

Note to the teacher: Say the sounds as you see each grapheme/letter or letter groups to learn the basic sound-symbol association. Avoid using the names of letters while practicing the sounds. The given pictures help to say the sounds that the graphemes/letter/letter groups represent. Learning must not be hurried and regular practice must be given with posters and flashcards.
Sounds, Letters, and Words

Say the sounds. Segment the words on your fingers (palm facing yourself) to spell. Blend the sounds to read.
